Accordingly, you will need to consider the appropriateness of the information contained herein having regard to your particular circumstances.

How you can use this FSG

This FSG is in two parts.

Part one helps you decide if you want to use our services as well as giving you important information we think you need to know. It sets out the range of services and products we can offer under our licence, together with details of:

- our relationship with product providers
- how we manage any potential conflicts of interest we may have
- how we, our staff and associates are paid, and any other benefits we might receive
- how we collect and use your personal information, and
- our processes for dealing with problems and complaints, and how you can access them.

Part two sets out the current fees and charges for our services.

Other documents you may receive from us

In addition to this FSG, you will receive from JBWere (which may be by publication on its website) the terms and conditions of our trading and settlement service. You should read these carefully as these will govern the relationship between us.

We do not provide personal financial product advice to our clients, so you will not receive Statements of Advice from us.

However, if we offer to issue (or arrange for the issue) or issue a financial product to you, JBWere will provide you with a Product Disclosure Statement (or other applicable disclosure document) for the financial product. These disclosure documents will contain information about the features, benefits and risks of the product, as well as any fees and charges you might pay and are intended to help you to make a decision about whether you acquire the financial product.
